

STUDENT ACCEPTABLE USE POLICY FOR COMPUTER TECHNOLOGY AND INTERNET

This policy is meant as a reference document for parents/guardians and students to keep.

You have access to the Presidio School computer network. This access includes connections to the computers throughout the school itself as well as to the internet, which connects you with educational resources all over the world. Our goal in providing this service is to promote educational excellence at Presidio School by facilitating resource sharing, innovation, and communication. The system hardware is Presidio School property. All material/messages created, composed, sent, or received on the system are (and remain) property of Presidio School and are not the private property of any person.

While there are filters and security measures built into the system, you must exercise responsible use of the technology and systems to which you have access. The use of this technology is a privilege, not a right. If you violate this policy or use the system for any improper purposes, you shall be subject to discipline as deemed appropriate by the administration, up to and including suspension, expulsion, and suspension of system privileges.

Please read the following policies that govern the use of the computer equipment, computer software, and the internet at Presidio School. When using the School's computer network, you accept the responsibility of using the network in an appropriate manner. This policy is applicable at all times, which includes class time, break time, and non-school hours, and applies whether you are on or off Presidio School premises during the use.

A. Educational Purpose

The Presidio School computer network has been established for a limited educational purpose. The term "educational purpose" includes classroom activities and career development activities. The School's computer network has not been established as a public access service or a public forum. Presidio School has a right to place reasonable restrictions on the material you access or post through the system. You are expected to follow the rules set forth in the Student Handbook, as well as the law, in your use of the Presidio School network. You may not use the School's computer network for commercial purposes. This means you may not offer, provide, or purchase products or services through the network.

B. Student Internet Access

All students will have access to Internet World Wide Web information resources through their classroom, library, or school computer lab. Presidio School will utilize filtering software or other technologies to prevent students from accessing visual depictions that are (1) obscene, (2) pornographic in nature, or (3) harmful to minors. Educational staff will, to the best of their ability, monitor minors' use of the internet in school, will take reasonable measures to prevent access by minors to inappropriate material on the internet, and restrict access to materials harmful to minors.

C. Unacceptable Uses

Personal Safety: You will not post personal contact information about yourself or other people. Personal contact information includes your address, telephone, school address, work address, social security number, credit card number, etc. You will not agree to meet with someone you have met online without

your parent/guardian's approval. Your parents/guardian should accompany you to this meeting. You will promptly disclose any message you receive that is inappropriate or that makes you feel uncomfortable to a trusted adult (eg school personnel, parent/guardian). Personally identifiable information concerning students will not be disclosed or used in any way on the internet without the permission of a parent/guardian.

Email, Blogging, Chat, and Instant Messaging: You will not use commercial web-based mail (Hotmail, YahooMail, Gmail, etc.) on any school computer or any type of instant messaging including, but not limited to, Facebook, Hangouts, Pinterest, Snapchat, What's App. You are not permitted to contribute to weblogs or to be in online web-based chat rooms unless it is part of a collaborative sharing project under the direct supervision of a teacher. Furthermore, you are prohibited from using IRC chat programs on any school computer.

Illegal Activities: You will not attempt to gain unauthorized access to Presidio School's computer network or to any other computer system through the Presidio School computer network or go beyond your authorized access (AKA "hacking"); this includes attempting to log in through another person's account or accessing another person's files. These actions are illegal even if only for the purpose of "browsing." You will not make deliberate attempts to disrupt the computer system or destroy data by spreading computer viruses or by any other means. These actions are illegal. You will not use Presidio School's computer network to engage in any other illegal acts, such as arranging for a drug sale or the purchase of alcohol, engaging in criminal gang activity, threatening the safety of a person, etc.

System Security: You are responsible for your individual account and should take all reasonable precautions to prevent others from being able to use your account. Under no conditions should you provide your password to another person. You will immediately notify school personnel if you have identified a possible security problem. Do not go looking for security problems because this may be construed as an illegal attempt to gain access.

Inappropriate Language: Restrictions against inappropriate language apply to public and private messages and material posted on web pages. You must not use the system to create, send, receive, or use any offensive or disruptive materials or messages. Messages which are considered to be offensive include, but may not be limited to, those which contain sexual implications, racial slurs, gender-specific comments, or any other comments that offensively address someone's sex, sexual orientation, religious or political beliefs, national origin, or disability. Also considered offensive are messages or materials which are fraudulent, harassing, or obscene, and those which contain abusive, profane, or offensive language. Persons who wish to express personal opinions on the internet must obtain their own user names on non-school owned systems. You will not post information that could damage or endanger another's reputation. You will not engage in personal attacks, including prejudicial or discriminatory attacks. You will not harass another person. (Harassment is persistently acting in a manner that distresses or annoys another person). If you are told by a person to stop sending them messages, you must stop. You will not knowingly or recklessly post false or defamatory information about a person or an organization.

Respecting Resource Limits: You will use the system only for educational activities. You will not download any files; loading or use of unauthorized games, programs, files, or other electronic media is prohibited. No software is to be installed onto the network by students at any time for any purpose. You will not post chain letters or engage in "spamming." (Spamming is sending an annoying or unnecessary message to a large number of people). You will be responsible for damages done to the equipment, system, and software. Vandalism will result in a cancellation of privileges. ("Vandalism" is defined as any malicious attempt to harm or destroy data of another user, the internet, or any of the agencies that are connected to the internet backbone).

Plagiarism and Copyright Infringement: You will not plagiarize works that you find on the internet. (Plagiarism is taking the ideas or writings of others and presenting them as if they were yours). You will respect the rights of the copyright owners. Copyright infringement occurs when you inappropriately reproduce a work that is protected by a copyright. If a work contains language that specified appropriate use of that work, you should follow the expressed requirements. If you are unsure whether or not you can use the work, you should request permission from the copyright owner. Copyright law can be very confusing. If you have any questions, ask a teacher.

Inappropriate Access to Material: You will not use Presidio School's computer network to access material that is profane or obscene (pornography), that advocates illegal acts, or that advocates violence or discrimination towards other people (hate literature). A special exception may be made for hate literature if the purpose of your access is to conduct research and both your teacher and parent/guardian have approved. If you mistakenly access inappropriate information, you should immediately report it to school personnel; this will protect you against a claim that you have intentionally violated this policy. Your parent/guardian should instruct you if there is additional material that they think would be inappropriate for you to access. Presidio School fully expects that you will follow your parent/guardian's instructions in this matter.

D. Your Rights

Search and Seizure: Presidio School reserves and intends to exercise the right to review, audit, intercept, access, and disclose all uses of the system. The contents of electronic communications may be disclosed within the School or to law enforcement officials without the permission of the author. You should not assume confidentiality of any material produced. Even when the material is erased from the system, it is usually possible to retrieve that material. Further, the use of passwords for security does not guarantee confidentiality or privacy. Routine maintenance and monitoring of the computer network may lead to the discovery that you have violated this policy, the provisions of the Student Handbook, or the law. An individual search will be conducted if there is reasonable suspicion that you have violated this policy, the provisions of the Student Handbook, or the law. The investigation will be reasonable and related to the suspected violation. Your parents/guardian's have the right at any time to see the contents of your files.

Due Process: Presidio School will cooperate fully with local, state, or federal officials in any investigation related to any illegal activities conducted through the School's computer network. If the violation also involves a violation of other provisions of the Student Handbook, it will be handled in a manner described in the Student Handbook. Additional restrictions may be placed on your use of your Internet account.

E. Limitation of Liability

The School makes no guarantee that the functions or the services provided by or through Presidio School's computer system will be error-free or without defect. The School will not be responsible for any damage you may suffer, including but not limited to, loss of data or interruptions of service. Presidio School is not responsible for the accuracy or quality of the information obtained through or stored on the system. The School will not be responsible for financial obligations arising through the unauthorized use of the system.

F. Personal Responsibility

When you are using Presidio School's computer network, it may feel like you can more easily break a rule and not get caught. This is not really true because whenever you do something on a network, you leave "electronic footprints," so the odds of getting caught are really about the same as they are in the real world. You and/or your parent/guardian can be held financially responsible for any harm to the system as a result of intentional misuse.

TECHNOLOGY USE POLICY AND PERMISSION FORM

The following activities are not permitted:

- Giving personal information, such as complete name, address, or telephone number
- Damaging or modifying computers, computer systems, or computer networks
- Using obscene language
- Emailing, blogging, chatting, or instant messaging (unless part of a teacher-directed activity)
- Creating, sending, receiving, or using any offensive or disruptive materials or messages
- Harassing, insulting, or attacking others
- Using others' passwords
- Downloading files or software
- Trespassing in others' folders, work, or files
- Intentionally wasting limited resources
- Violating copyright laws (including plagiarism)

I understand that should I purposely or through carelessness or neglect, damage or lose technology hardware (e.g. chromebooks, Touch TVs), my parents/guardians will be responsible for the fair market cost of repairs or replacement depending upon the damage to the equipment.

Agreement: I have read the Student Acceptable Use Policy and agree to use the school network and technology hardware as outlined in this policy.
